

### SAFETY DATA SHEET

## SECTION 1: IDENTIFICATION

Neostigmine Methylsulfate Injection, USP Simplist® (Prefilled Syringe) Product Name:

Manufacturer Name: Fresenius Kabi USA, LLC Three Corporate Drive Address: Lake Zurich, Illinois 60047

General Phone Number: (847) 550-2300 Customer Service Phone (888) 386-1300

(800) 551-7176 Health Issues Information: SDS Creation Date: April 30, 2019 SDS Revision Date: October 04, 2024

# SECTION 2: HAZARD(S) IDENTIFICATION

GHS Pictograms:

Signal Word: DANGER.

GHS Class: Respiratory sensitisation. category 1.

Germ cell mutagenicity. Category 2. Skin Sensitization. category 1.

Reproductive toxicity. Effects on or via lactation.

Hazard Statements: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Suspected of causing genetic defects. May cause an allergic skin reaction. May cause harm to breast-fed children.

Precautionary Statements:

Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Do not breathe dust/fume/gas/mist/vapours/spray.

Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact during pregnancy and while nursing.

Wash hands thoroughly after handling.

Do not eat, drink or smoke when using this product.

Contaminated work clothing should not be allowed out of the workplace.

Wear protective gloves/protective clothing/eye protection/face protection.

In case of inadequate ventilation wear respiratory protection.

IF ON SKIN: Wash with plenty of water.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

IF exposed or concerned: Get medical advice/attention. Specific treatment (see ... on this label).

If skin irritation or rash occurs: Get medical advice/attention.

If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.

Take off contaminated clothing and wash it before reuse.

Store locked up

Dispose of contents/container in accordance with Local, State, Federal and Provincial regulations.

Emergency Overview: This product is intended for therapeutic use only when prescribed by a physician. Potential adverse

reactions from prescribed doses and overdoses are described in the package insert.

Route of Exposure: Inhalation Ingestion Eye contact Skin Absorption. Injection.

Potential Health Effects:

Eye: Contact with eyes may cause irritation.

Skin: May cause skin irritation. Skin contact may result in allergic-type skin rash and hypersensitivity

reactions.

Inhalation: May cause irritation of respiratory tract. May cause respiratory sensitization with asthma-like symptoms

in susceptible individuals.

Ingestion: May cause irritation.

Signs/Symptoms: Adverse reactions from therapeutic doses generally are due to an exaggeration of pharmacological

effects of which salivation and fasciculation are the most common. Other adverse reactions include: Bowel cramps and diarrhea. Overdosage of neostigmine methylsulfate can cause cholinergic crisis, which is characterized by increasing muscle weakness, and through involvement of the muscles of respiration, may result in death. The immediate use of atropine in cholinergic crisis is recommended; but such use, by masking signs of overdosage, can lead to inadvertent induction of cholinergic crisis.

Occupational exposure has not been fully investigated.

Aggravation of Pre-Existing Conditions:

Individuals with known hypersensitivity to the drug and individuals with peritonitis or mechanical obstruction of the intestinal or urinary tract.

# SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS#	Ingredient Percent	EC Num.
Neostigmine Methylsulfate	51-60-5	0.25 % by weight	
Phenol	108-95-2	0.45 % by weight	
Sodium Acetate (anhydrous)	127-09-3	0.02 % by weight	
Water for Injection	7732-18-5	Quantity Sufficient	

#### SECTION 4: FIRST AID MEASURES

Eye Contact: Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of

the eyes by separating the eyelids with fingers. Get immediate medical attention

Skin Contact: Immediately wash skin with plenty of soap and water for 15 to 20 minutes, while removing

contaminated clothing and shoes. Get medical attention if irritation develops or persists.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained

personnel. Seek immediate medical attention.

Ingestion: If conscious, flush mouth out with water immediately. Call a physician or poison control center

immediately. Do not induce vomiting unless directed to do so by medical personnel. Never give

anything by mouth to an unconscious person.

Other First Aid: For Adverse Event Information, please call (800) 551-7176.

#### SECTION 5: FIRE FIGHTING MEASURES

Flash Point: Not established. Flash Point Method: Not established Auto Ignition Temperature: Not established. Lower Flammable/Explosive Limit: Not established. Upper Flammable/Explosive Limit: Not established.

Fire Fighting Instructions: Evacuate area of unprotected personnel. Use cold water spray to cool fire exposed containers to

minimize risk of rupture. Do not enter confined fire space without full protective gear. If possible,

contain fire run-off water.

Extinguishing Media: Use alcohol resistant foam, carbon dioxide, dry chemical, or water fog or spray when fighting fires

involving this material.

Use extinguishing measures that are appropriate to local circumstances and the surrounding

environment.

Protective Equipment: As in any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent)

and full protective gear.

Hazardous Combustion

Byproducts:

Thermal decomposition products may include smoke and toxic fumes. Oxides of carbon, oxides of nitrogen and other organic substances may be formed. Other undetermined low molecular weight hydrocarbon compounds may be released in small quantities depending upon specific conditions of

combustion.

# SECTION 6 : ACCIDENTAL RELEASE MEASURES

Personal Precautions: Evacuate area and keep unnecessary and unprotected personnel from entering the spill area

Avoid personal contact and breathing vapors or mists. Use proper personal protective equipment as

listed in Section 8.

Environmental Precautions: Avoid runoff into storm sewers, ditches, and waterways.

Methods for containment: Contain spills with an inert absorbent material such as soil, sand or oil dry.

Absorb spill with inert material (e,g., dry sand or earth), then place in a chemical waste container. After Methods for cleanup:

removal, flush spill area with soap and water to remove trace residue.

## SECTION 7: HANDLING and STORAGE

Handling: When handling pharmaceutical products, avoid all contact and inhalation of vapor, mists and/or fumes.

Use with adequate ventilation. Use only in accordance with directions.

Store at controlled room temperature 15 to 30°C (59 to 86°F). Protect from light. Retain vial in carton Storage: until time of use

Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety Work Practices:

Hygiene Practices: Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist.

# SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION

General ventilation is sufficient if this product is being used in a controlled medical setting (clinic, **Engineering Controls:** 

hospital, medical office) for its sole intended parenteral (injection) purpose. Otherwise, use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls including use of a biosafety cabinet / fume hood to control airborne levels below recommended

Eye/Face Protection: Chemical splash goggles. Wear a face shield also when splash hazard exist.

Skin Protection Description: Protective laboratory coat, apron, or disposable garment recommended.

Hand Protection Description: Wear appropriate protective gloves. Consult glove manufacturer's data for permeability data.

Nitrile rubber or natural rubber gloves are recommended

No personal respiratory protective equipment is normally required when this product is being used/administered by a licensed healthcare practitioner (i.e. an end-user such as a clinician / doctor / Respiratory Protection:

nurse) for its sole intended parenteral (injection) purpose in a controlled medical setting. The need for respiratory protection will vary according to the airborne concentrations and environmental conditions. A NIOSH approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances. Consult the NIOSH web site

(http://www.cdc.gov/niosh/npptl/topics/respirators/) for a list of respirator types and approved suppliers.

Other Protective: Consult with local procedures for selection, training, inspection and maintenance of the personal

#### **EXPOSURE GUIDELINES**

Phenol:

Guideline OSHA: Skin: Yes.

#### SECTION 9: PHYSICAL and CHEMICAL PROPERTIES

Physical State: Liquid solution. Color: Colorless.

Odor: No information.

Odor Threshold: Not determined. **Boiling Point:** Not established.

Melting Point: Not established.

Density: No information. Specific Gravity: No information.

Solubility: Soluble. in water.

Vapor Density: Not established. Vapor Pressure: Not established.

Percent Volatile: Not established.

Evaporation Rate: No information.

pH: ~ 5.9

Molecular Formula: Mixture

334.39 Molecular Weight:

Coefficient of Water/Oil

Viscosity:

No information.

No information.

Flash Point: Not established. Flash Point Method: Not established.

Auto Ignition Temperature: Not established.

VOC Content: No information.

# SECTION 10: STABILITY and REACTIVITY

Chemical Stability: Stable under normal temperatures and pressures.

Hazardous Polymerization: Not reported.

Conditions to Avoid: Exposure to light may cause decomposition.

# SECTION 11: TOXICOLOGICAL INFORMATION

Phenol:

IARC: IARC: Group 3: Unclassifiable as to carcinogenicity to humans.

Acute Effects: Eye, skin, and respiratory irritation may occur.

**Neostigmine Methylsulfate:** 

CY1225000 RTECS Number:

Skin: Rash and urticaria

Ingestion: Oral - Mouse LD50: 7.5 mg/kg (RTEC)

Sensitization: Allergic reactions and anaphylaxis

Other Toxicological Information:

Subcutaneous - Rat LD50: 334 ug/kg Intravenous. - Rabbit LD50: 250 ug/kg Intraperitoneal. - Mouse LD50: 230 ug/kg (RTEC)

Phenol:

RTECS Number: S13325000

Eye: Phenol is corrosive to the rabbit eve.

Dermal - Rat LD50 : 660-707 mg/kg (OECD SIDS) Phenol causes severe chemical burns. Skin:

Prolonged and/or repeated skin contact with this product may cause damage to epidermal tissue.

Inhalation: Inhalation - Rat LC0 : 900 mg/m<sup>3</sup>/8 h (ECHA)

Prolonged and/or repeated inhalation may cause damage to liver.

This product if inhaled may cause upper respiratory irritation and possible central nervous system effects including headaches, nausea, vomiting, dizziness, drowsiness, loss of coordination, impaired

judgement, and general weakness.

Inaestion:

Oral - Rat LD50: 340 mg/kg (OECD SIDS)
Prolonged and/or repeated oral exposure may cause damage to nervous system.

Mutagenicity: Phenol should be regarded as a somatic cell mutagen.

Sodium Acetate (anhydrous):

RTECS Number: AJ4300010

Eve: Rabbit, not irritating. (TS: potassium acetate) Skin: Dermal - Rabbit LD50 > 10000 mg/kg (CHEMINFO)

Rabbit, not irritating.

Inhalation: Inhalation - Rat LC50 > 5.6 mg/L/4 h (OECD Guideline 403 ) (TS: calcium diacetate) (ECHA)

Oral - Rat LD50: 5200 mg/kg (CHEMINFO) Ingestion:

#### SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: No ecotoxicity data was found for the product.

Environmental Stability: No environmental information found for this product.

**Neostigmine Methylsulfate:** 

Ecotoxicity: No data were available. Biodegradation: No data were available. Bioaccumulation: No data were available.

Phenol:

Ecotoxicity:

Rainbow trout (Oncorhynchus mykiss) LC50 (96hr): 5.02 mg/L Mrigal carp (Cirrhina mrigala) NOEC (60d) 0.077mg/L Water flea (Ceriodaphnia dubia) LC50 (48hr) 3.1mg/L, EC10 (16d) 0.46 mg/L Green algae (Selenastrum capricornutum) EC50 (96hr): 61.1 mg/L Marine diatom (Skeletonema costatum) NOEC (120h): 13 mg/L (OECD SIDS)

Biodegradation: Phenol is readily biodegradable (OECD 301C: 85 % after 14 d).

Bioaccumulation: Potential to bioaccumlate is low (BCF = 17.5).

Sodium Acetate (anhydrous):

Zebrafish (Danio rerio) LC50 (96hr) > 100 mg/L (OECD Guideline 203, GLP) Ecotoxicity:

Water flea (Daphnia magna) EC50 (48hr) > 919 mg/L (OECD Guideline 202, GLP) (TS: potassium acetate)

Marine diatom (Skeletonema costatum) EC50 (72hr) > 1000 mg/L (TS: potassium acetate) (ECHA)

Biodegradation: Readily biodegradable (86% after 7 days). Bioaccumulation: Potential to bioaccumlate is low (BCF 3.162).

## SECTION 13: DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose of in accordance with Local, State, Federal and Provincial regulations.

## SECTION 14: TRANSPORT INFORMATION

DOT Shipping Name: Not Regulated. DOT UN Number: Not Regulated.

IATA Shipping Name: Not Regulated. IATA UN Number: Not Regulated. IMDG UN Number :Not Regulated.IMDG Shipping Name :Not Regulated.RID UN Number :Not Regulated.RID Shipping Name :Not Regulated.

# SECTION 15: REGULATORY INFORMATION

Phenol:

TSCA Inventory Status: Listed
EINECS Number: 203-632-7

SARA: EPCRA - 40 CFR Part 372 - (SARA Title III) Section 313 Listed Chemical.

Section 302 EHS: EPCRA (SARA Title III) Section 302 (40 CFR Part 355) Extremely Hazardous Substances (EHS)

Threshold Planning Quantity (TPQ) in pounds.: 500/10,000 Lbs.

Section 304 RQ: EPCRA (SARA Title III) Section 304 Extremely Hazardous Substances (EHS) Reportable Quantities (RQ)

in pounds.: 1,000 Lbs.

Canada DSL: Listed
Canada IDL: : 250 ppm

Sodium Acetate (anhydrous):

TSCA Inventory Status: Listed

EINECS Number: 204-823-8

Canada DSL: Listed

## SECTION 16: ADDITIONAL INFORMATION

**HMIS Ratings**:

HMIS Health Hazard: 2\*
HMIS Fire Hazard: 1
HMIS Reactivity: 0
HMIS Personal Protection: X

SDS Creation Date: April 30, 2019
SDS Revision Date: October 04, 2024

SDS Revision Notes:

Overall SDS review - no changes to formulation. Updated HMIS ratings for Health,

Flammability, Reactivity, and Personal Protective Equipment (PPE).
